STRIKE TO EXTEND TO MINE IN NEVADA

CHANGE IN OIL TRUST RECALL IS SOUGHT EXISTS, IS CHARGE

Alameda County Tax Association Wants Percentage Increased  
Would Bring Necessary Signatures Petition Up to 25 Per Cent

Following the agitation against the low percentage of signers required by the recall provision of the new charter during the recent recall election the Alameda County Tax Association has issued a bulletin strongly recommending the increase of percentage for the securing of signatures and places it at 25 per cent in place of 15 per cent, as it is at the present time. Many of those who previously advocated the increasing of the signatures suggested making it 35 per cent, as the recall was placed in the new charter only as an extreme measure and that it ought to be protected by prohibitions that will permit of its use only in special instances. The recommendation of the tax association is as follows:

ANALYZE RECALL. In the association bulletin an analysis of the recall election is made and it reveals some interesting figures. The following table shows the representation of taxpayers among the signers of the petitions:

formerly officers and directors of the trust, but are now officers or directors of the former subsidiaries.

"Don't these men discuss their business there daily?"

"No."

"You hear them talking, don't you?"

"Yes, they talk in generalities. I hear them laughing and joking."

"How long have you been listening to them as they talked and joked and laughed?"

"Since last December."

"SHAM," SAYS UNTERMEYER.

This line of questioning met with vigorous objections by D. N. Kirby, the Standard's lawyer, and Untermyer insisted the statement in reply for the record.

"The purpose of this questioning is to show the sham and humbug with which these people, who have been segregated, and, these various companies, meet here daily for the transaction of their business, just as they meet every day in years gone by."

Velt added that the late H. H. Rogers sat at this table, and that the Rockefeller family always took luncheon there whenever they were in town.

were a unit for all intent and purpose, as they bore a message to the assembled thousands attending the state fair which is identical to that carried into the legislature not so very long ago.

They went to tell Californians that Oakland does not want to be annexed to San Francisco; that the "east bay shore cities stand for home rule" and with the admonition to "let us alone and watch us grow." Not only was each member of the delegation appropriately decorated for the occasion with badges, ribbons and a goodly supply of literature to be used for distribution, but the engine drawing the special train bore evidence that something out of the ordinary was going on along the line. Between Oakland and Sacramento the towns enroute were showered with cards bearing the well-known motto: "Oakland, the City of Opportunity: Where Rail and Water Meet." The capital was also inundated with Oakland literature and enthusiasm.

# ALAMEDA COUNTY DAY.

It is all because the day has been set aside as Alameda county day at the California State Fair. The occasion could not have been more appropriate for the dual purpose of pleasure and business and all those who left on the special were prepared to enjoy themselves to the fullest extent.

Headed by the famous White Oaks drill team of Oakland Lodge, No. 111, E. P. O. B., under the command of Colonel J. K. Ritter, the delegation took a prominent part in the day's festivities. The special train will leave Sacramento at 9:30 tonight arriving in Oakland about midnight.

During the day, each excursionist participated in the distribution of Oakland literature dealing with proposed constitutional amendment No. 3 providing for the "gobbling up" of Oakland and other bay cities by San Francisco. Fifty thousand circular cards were taken on the train. They are so shaped that they can be sailed through the air, carrying their message wherever they may alight.

# VISITORS WELCOMED.

SACRAMENTO, Sept. 20.—Greeted by a brass band and a large number of Oaklanders who have been spending the week in this city, the special train bearing 300 Oakland "boosters" arrived over the Southern Pacific before noon today. They were received by E. W. Carmichael of the committee on entertainment and by members of the Alameda county exposition committee.

Visitors formed in line and marched to their headquarters at a local hotel. Later lunch was served in the different cafes, where provision had been made especially for them. Shortly after 1 o'clock the entire body boarded special cars and rode to the fair grounds. Great quantities of "boosting" literature were distributed enroute and on the grounds. Exposition Commissioners Wilber Walker and Theodore Cier welcomed the "boosters." Prominent among the visitors was the Elks drill team in their white uniforms.

Trains carrying hundreds of gay holiday makers from both Alameda and Napa counties arrived during the morning, and incoming trains from Chico and Woodland brought hundreds more, this being Chico and Woodland day as well as Alameda county day.

The formation of a California dairy operators' association was urged at the meeting of the first annual dairy congress in connection with the State Fair in the big horse show tent at the grounds today. The subject of an association for dairy operators was introduced by Fred H. Dingle, Alameda secretary of the creamery operators' association of this state.

# F. C. HAVENS' BOAT MAKES CLEAN SWEEP CRACK RACER "AVIS" ANNEXES TROPHY

# Deciding Contest Is Won by Narrow Margin of Seven Seconds

Friends of Frank C. Havens received telegrams today from the millionaire notifying them that the crack Havens motorboat Avis had made a clean sweep in the series of races held this week on the Hudson river, New York. Havens himself was on board the little boat with Commodore Young when she outdistanced her competitors, winning all three series of races and thereby annexing valuable trophies. The deciding race was won by the narrow margin of seven seconds.

The Avis won the long-distance race of sixty knots by only one minute. On Saturday the Avis will be entered in the races held under the auspices of the Columbia Yacht Club.

# BLIND WHEN SHE SIGNED PAPER

Notary Says Woman Had to Have Money or Go to Poorhouse.

SAN FRANCISCO, Sept. 20.—Testimony of a startling nature was contributed in Superior Judge Coffey's court today in the action of Mrs. Adele Brun De La Porte for a family allowance of \$150 a month from the estate of George De La Porte, a wealthy wholesale liquor merchant. De La Porte died leaving property to the amount of \$150,000 to two sisters and his bookkeeper. The opposition to Mrs. De La Porte's claim is based upon a statement signed by her September 25, 1900, in Oakland, in which she declared that she was blind and never had been the wife of De La Porte.

Today William C. Moran, a notary public of South Berkeley, testified that he had attested the signature at the Oakland home of Mrs. De La Porte and that he had advised her to sign it in order to save her from the almshouse. On signing it she was to receive \$1000 and later her home on Sixty-first street, Oakland, was sold in order to pay her the money.

Moran added that he had always known her as Mrs. De La Porte and declared that she was blind and had to be propped up in bed in order to affix her signature. One of the witnesses, Mrs. Minnie Julliat, of 946 Sixty-first street, Oakland, also told of the execution of the paper. Mrs. Annie Wright of Martinez, and Dr. Alfred Lamotte of this city, declared that they had always known her as Mrs. De La Porte.

Mrs. De La Porte's first husband, Brun, was killed in the Garfield riot in the old country and subsequently she claims she married De La Porte. The matter was continued for further hearing.

# THOUSANDS MAY JOIN BIG STRIKE

Workers in All Mines Owned by Utah Company May Be Called Out.

(Continued From Page 1)

300 of them, chiefly Greeks, were discussing the report that the Utah Copper Company proposed to put a few men to work at the steam shovel pits today.

The Greeks claimed to have advices from Salt Lake City that L. G. Skirlis, an employment agent, had been engaged by the Utah Copper Company to forward strikebreakers. The report was the more irritating as Skirlis has been made one of the issues of the strike by the Greek element, which asserts that he dictates the employment of his countrymen by the mining companies, levies a toll on their wages and procures the discharge of those who do not patronize his store.

# STRIKERS OPPOSE SKIRLIS.

Governor Spry was told yesterday by many Greek strikers that they would be willing to waive the wage demands if Skirlis were removed from office.

The alleged action of the labor agent is denied by Assistant Manager Gemmell of the Utah Copper Company, who insists that Skirlis is employed at a fixed salary to supply what men he can when they are needed, but is forbidden to collect from them while they are employed.

A "dinky" engine, guarded by 21 deputy sheriffs, moved from the foot of the mountain to the top level of the Utah Copper property this morning. The strikers did nothing. Men are leaving camp at the rate of 100 to 150 on every train.

Sixty-two hundred men now compose the army of mine workers made idle by the strike in the mines here Wednesday morning, and present indications are that this number will be greatly increased unless a settlement of difficulties is brought about within the next few days. Forty hundred of the idle men are strikers. The remaining seventeen hundred were forced to leave their work when the concentrating mills at Garfield were closed down last night for lack of ore.

The Greeks and Cretons, who until yesterday were fortified in trenches overlooking the mines, have remained true to their promise to Governor Spry to give up the stronghold, but have not relaxed their vigilance on the mines. Pickets patrol the roads leading to the mines.

Many of the American miners and machinists, who in most cases opposed the strike, have left the camp and are taking no part in the disturbances.

# OTHERS MAY STRIKE.

SALT LAKE CITY, Sept. 20.—A report current early this morning that the Western Federation of Miners would attempt to close down the Nevada, Arizona and New Mexico properties owned by Utah Copper Company interests and managed by D. C. Jackling, was partially confirmed by the federation president, Charles H. Meyer.

"We are contemplating such a move," he said, "and have a man on the way to Elly to take up the matter there. Mr. Jackling refuses to recognize the union in Utah and in other states, and men in other states should work for him. The men have some pride and are unwilling to work where they are not wanted. In fact, the miners at the Nevada Consolidated at Elly, Nev., are ready to go out at a moment's notice. Mr. Jackling is general manager of the Nevada Consolidated and officials of the union at Elly have written me asking me if I did not think it advisable that they strike."

Meyer says he does not believe there will be any more shooting at Bingham. He was instrumental in persuading the miners to leave their "shooting galleries" at home.

The Nevada Consolidated mine employs about 3500 men. At the China, Santa Rita, N. M., 1500 men are employed, and the Ray Consolidated has several hundred. The Nevada Consolidated and China, like the Utah Mine of

## TRIPLE FUNERAL SERVICE HELD

Slayer and Two Victims Rest Together in Mortuary Chapel.

SAN FRANCISCO, Sept. 20.—Only the low sobbing of women broke into the solemn words of the funeral service, repeated first by a Christian minister and then by a Jewish rabbi, as they were spoken this morning over the dead bodies of Arthur Hall, slayer of James Hall and his wife, and his two victims.

Rev. A. B. Snider, pastor of the Bethlehem Congregational church, was the first to step forward, and in a few simple words to speak the eulogy of the dead woman, who was a Christian. Rabbi M. S. Levy, who dwelt upon the principles of unity between the two religions, merely hinting at the family dissensions which were in part responsible for the tragedy.

Flowers covered Coffin.  
The three coffins, covered with flowers and garlands, stood side by side in the little mortuary chapel of Halstead & Co., on Sutter street. Morris Hall, the father of the two dead men, broken and aged by the tragedy, passed slowly across the line of the three coffins and sat at the right near the body of his younger son. On the other side sat Mrs. A. Meechem, parents of Mrs. Hall.

Among the other relatives who were present sat 9-year-old Pauline Hall, who lost her two brothers in Wednesday's tragedy, and Esther Meechem, 11-year-old daughter of Mrs. Hall, both weeping bitterly.

SEPARATE BURIALS.  
After the services the bodies of the two brothers were taken to Salem cemetery, where they were interred with the ancient Jewish rites. Mrs. Hall's body was cremated and will rest in Cypress Lawn cemetery.

A strange coincidence noted this morning is that today is the eve of the great Jewish fast of Yom Kippur, the Day of Atonement. On that day, Jews are judged for their sins of the year, and the souls of the murdered man and his slayer will be among them. Such were the final words of Rabbi Meyer this morning.

## CACK HENLEY SHOWS FANS THAT HE IS STILL THERE

The excellent pitching of Cack Henley was too much for Johnny Atkins' hired the young man at a monthly income and has agreed also to place \$5000 in the bank for him. Paxton was made blind through a fall from a car window when he was a little boy. His mother, Bessie Paxton, was divorced some years ago.

A single in the fifth helped the Seals to make another run. After two were down Peters became generous and passed Howard, who lost no time in stealing second. Zimmerman came through with a hit and Howard had no trouble in crossing the rubber.

The Seals got their final tally in the sixth as a result of a couple of bingles. Wagner singled to right field and Goltz went out on a grounder to Miller. Wagner moving around to third. The squeeze signal was given and Peters got away. He aimed one right at Cack's head, but the Seal catcher doubled up like a contortionist and in some unknown manner connected with the ball, sending it to the infield for a hit. Wagner scored. The Senators scored one in the seventh. Van Buren led off with a single to center. Orr went down on strikes and Miller was an easy out on a fly to McIntyre. Irvan was hit by a pitched ball. Kretz doubled to left field, scoring Van Buren, and Irvan went to third. Swain, who was doing bench duty, was given the office to take Peters' place at the bat. The big fellow cut out on strikes, the third being a questionable one. Score: 1 2 3 4 5 6 7 8 9

## IDENTIFY SUSPECT AS CAR BANDIT

Prisoner Unable to Give Clear Account of Himself to the Police.

SAN FRANCISCO, Sept. 20.—Positive identification of Louis Kirshman as the San Mateo car bandit by H. G. Leahy, conductor of the southbound interurban car, and the inability of the suspect to give a coherent account of his movements, have convinced the San Mateo County authorities that they have the much-sought-for bandit in custody.  
"We feel certain that we have the right man," said Under Sheriff Harley Mansfield of Redwood City this morning. "Though all of the twelve persons who came here yesterday to see him did not identify him positively, all of them except one said that he bore a very close resemblance to the robber. I put great importance in the positive identification of Conductor Leahy, who was commanded by the bandit to collect the passengers' money. I believe there is no doubt but what Kirshman is the bandit."

Despite the suspicions of the authorities and the identification by Leahy and others, Kirshman still maintains that he is innocent. He claims he was walking to Santa Cruz after having been told to leave the city by J. M. Hummacker, a carpenter, with whose daughter he had been keeping company.

## BLAMES OFFICIALS FOR AIR TRAGEDY

Aviator Says He Was Ordered to Fly in Order Not to Disappoint Crowd.

CHICAGO, Sept. 20.—"I protested to the Aero Club of Illinois against flying in the approaching darkness, but officials insisted I should fly because the crowd would be disappointed if I did not."

George Mestach, the French aviator, so testified today at the inquest into the death of Howard W. Gill, the Baltimore aviator killed at the aviation meet last Saturday after his biplane, 15 feet in the air, had collided with a monoplane driven by Mestach. The accident occurred at 6 p. m.

"Officials then promised my machine would be the only one in the air," Mestach declared. "I was going at terrific speed when I saw Gill's biplane 300 feet ahead of me. I tried to turn off and avoid a collision, but it was impossible."

## The Keynote of Health Is the Liver

Scientists have definitely learned that the liver is one of the most important organs of the human system. It is the sieve which separates the good from the bad, the nutritious from the poisonous. Allow the liver to become torpid or inactive, the poison is sent through the system and disease is the result. First you become bilious and constipated and later the consequences are most serious. No body can live as regular as a clock. In order to enjoy life we subject ourselves to dietary indiscretion. If the proper remedy is then used the trouble is quickly ended. A remedy which comes nearest to the heart of the people is a natural remedy. The natural remedy most widely used is Hunyadi Janos Water, the Natural Laxative. Its natural combination is wonderful. It cleanses the liver, flushes the intestines, purifies the system and is gentle, speedy and sure. Don't take substitutes, they are worthless imitations and may be harmful.

## WORLD'S SERIES WILL BEGIN ON MONDAY, OCTOBER 7

NEW YORK, Sept. 20.—The world's championship baseball series commences Monday, Oct. 7.

This date is said to have been provisionally agreed upon by the National Commission, which meets here next Wednesday to draft the plans for the games.

The date for the opening of the series was based upon the assumption that the New York Nationals and the Boston Americans would win the pennants in their respective leagues. The Boston club already has won the pennant and the Giants expect to win within the next ten days. The playing season of the Boston Red Sox and the New York Giants closes October 5 and one day's rest before the big series is deemed sufficient. An early start of the series is deemed as the commission desires to take advantage of the good weather. It is learned that the commission has practically decided to play two consecutive days in one city. The club owners will toss a coin to determine which city shall have the opening games.

FALLS DOWN STAIRS.  
Falling down the steps at her home, 234 Fifth street, 3-year-old Mary Meale sustained a fracture at the base of her skull. She was attended at the receiving hospital by Dr. Irwin and later removed to her parents' home, where her condition is precarious.

On the ground that Agnes Prieta was in danger of an attack no reinforcements were sent from that place. The federal soldiers under Oregon were strengthened by eighty soldiers from Fronteras. The Nacozari railroad wires and El Tigre telephone wires have been cut by the rebels.

## Fall Suits for Young Men and Boys

HIGH GRADE SUITS for Young Men, as sold here, are made notable by the exceptional tailoring bestowed on them, for they are designed by high-salaried specialists whose services cannot be equaled in the finest tailoring shops of the country.

There is an originality, a snap and a swing to our Young Men's Models that can't be duplicated in suits whose sole claim for consideration is that they are made to order.

The merchant tailor never is original—he is content to follow the fashions already established, and as the leading designers are monopolized by the best-known lines of ready-to-wear clothing, their work greatly influences the styles which the tailor later attempts to duplicate.

We show a line of Young Men's Suits which, for designing and tailoring, cannot be exceeded in a made-to-order suit at double the price. These \$25 possess every style feature approved for fall—you'll find them exceptional values at

## TREASURY SEAL OLDER THAN U. S.

Design Adopted in Days of the Confederation of Colonies.

WASHINGTON, Sept. 20.—The design of the seal of the treasury of the United States in all its essential features is older than the national government. From the days of the confederation of the colonies down through the history of the republic, the Latin motto on the seal has been the seal of the treasury of the United States.

These interesting facts have just been developed by an investigation by the treasury department into the history of the seal. The continental congress ordered its construction September 25, 1775, appointing John Witherspoon, governor Morris and H. H. Lee a committee on design. There is no record of the report of the committee, but impressions of the seal have been found as early as 1782.

The original seal was continued in use until 1845 when it was replaced by a new one, made by Edward Stabler of Montgomery county, Maryland. He was directed to make a seal similar to the old seal but there are some negligible differences.

The symbols, however, are the same. There are thirteen stars representing the thirteen colonies the scales as the emblem of justice, and keys in secular heraldry, denoting an office of state.

## TAXI LICENSE IS SUSPENDED

Horton F. Phipps Will Not Be Permitted to Run Autos for 30 Days.

SAN FRANCISCO, Sept. 20.—Horton F. Phipps, former husband of Valerie Phipps, the Kilmarnock dancer, at one time a society and club man, received a severe reprimand from the police commission yesterday and his license to operate a taxicab was revoked for the period of 30 days. Phipps, partner in the business, also was told to discontinue business for a month.

Phipps was before the commission on charges of charging three strangers from the ferry to Third and Townsend streets. Policeman Charles Jenkins, who criticized Phipps as a "man" and "one of the worst in the business."

Carl Leonhardt, proprietor of a roadhouse at Twenty-fourth avenue and Fulton street, was cited to show cause why his license should not be revoked. Leonhardt was charged with selling liquor to female patrons and his bottle goods department was ordered closed. The usual transfers and licenses were granted.

STEFANSON'S STORY CREDITED BY SAVANTS

WASHINGTON, Sept. 20.—The last tribe of Europeans, the White Eskimoes, whom Vilhjalmr Stefansson found in the Arctic circle, are old friends of the scientists of the National Museum here.

Dr. Walter Hough of the ethnological department of the museum, one of the greatest authorities on the American aborigines, believes that the explorer will be able to substantiate his statements.

"There are three important features of Stefansson's announcement," says Dr. Hough. "He speaks of finding many Eskimoes with blue eyes, reddish heads and light complexions."

"If these white Eskimoes are descendants of the lost colonies of Greenland, it is interesting to know that this white race has retained Scandinavian characteristics so long. The second important phase of Stefansson's report is that the facial index was the same as that of the Eskimoes of Greenland, and not typically European."

STANFORD UNIVERSITY, Sept. 20.—Har Dayal, Hindu professor, has resigned from the university faculty. He is about to make a lecture tour of the country.

## FREMONT SCHOOL FUND IS SUCCESS

Scholarship Awarded to Pupil and Good Use Is Made of Same.

Two years ago four members of the faculty of the John C. Fremont High School were appointed to form plans for a scholarship fund. During the year, by means of theater parties and entertainments, the committee was able to secure \$250. This amount was loaned to one of the pupils. The record of this pupil in scholarship was the highest in her class. Her character was beyond reproach, and it would not have been possible for her to attend the university without this help.

During the second year, the committee succeeded in gathering another like sum, with which it has supplemented a scholarship awarded by the university to the student, and has also made small loans to two other students who were thus enabled to attend the one, the normal school in San Francisco, and the other the University of California. These pupils have given their notes for the respective loans to the university to be known as the Fremont School Loan Fund.

One of the sources of this fund is the book exchange, by means of which books loaned to the pupils are sold to others, the fund receiving about 5 per cent. During the early part of this semester, \$50 worth of second-hand books were sold, \$50 of which went back to the students and \$10 remained in the scholarship loan fund.

The committee wishes to interest all friends of the Fremont High School in this undertaking and would welcome assistance. Knowing that in every home there is an accumulation of discarded books no longer in use in the schools of the county, the request has been made that these be loaned to the school and donated to the use of the committee.

There is to be given, in the near future, a theater party for the purpose of increasing this fund, and all patrons have been urged to contribute their share by attending the play chosen by the committee.

LOANS NOT CHARITY. The committee declares that these loans are not awarded as charity, but are made as any other business loan is made, and each borrower is held to the highest honor within the gift of the school.

## NEW CLUB BARS MARRIED WOMEN

Chicago's Fair Politicians Organize for Campaign Work.

CHICAGO, Sept. 20.—A suffrage club was organized here last night in which married women will not be eligible as members. Thirty young women make up the charter membership of the organization, which is to be known as the Young Women's Suffrage club of Hyde Park and Woodlawn. All members must be at least 18 years of age, and while no age limit has been fixed the young women have it is known that only young and unmarried members of their sex need apply.

"We are for women's suffrage, but do not know what party we will favor," said Miss Hilmar Lindstrand, who was chosen president. "We know a lot about politics, and when we have finished studying the platforms we will announce which party we will support."

The millinery department presents a wealth of styles and materials for new Fall Hats. In the assembly are hats at popular prices which possess the same air of exclusiveness as the original Paris and New York models. All the style, finish, and the nameless little touches that make a hat charming are to be found in them.

Hats of many shapes with chic, clever trimming touches upholding the highest artistic standard, at most reasonable prices, are to be found here.

You will be surprised at the amount of style contained in dozens of hats in the department which may be bought in a price ranging from \$6 to \$15.

## APARTMENT HOUSE BUILT OF REINFORCED CONCRETE

REINFORCED CONCRETE APARTMENT HOUSE UNDER CONSTRUCTION ON HARRISON BOULEVARD. BOWSER & HALEY, ARCHITECTS.

Appreciation of Oakland realty investment opportunities by Los Angeles capitalists is shown by the erection of the first reinforced concrete apartment house here by J. W. Owens of the southern city. The structure is near completion on the northeast corner of Harrison boulevard and Twenty-second street. The building, which is four stories in height, will cost \$70,000. It contains fifty apartments. The owner paid \$15,000 for the lot, fifty-two by 140 feet, the sale being

made through the agency of J. H. Macdonald & Co. Another wing will be added later to the handsome apartment structure, which was designed by A. Merrill Bowser, an architect of this city, who is associated with A. L. Haley of Los Angeles. Harrison boulevard, extending along the northwest arm of Lake Merritt, is becoming a fashionable apartment house district. Several fine buildings of this class having been erected on the thoroughfare recently.

## CHANGES MIND; WEDS ANOTHER

**Trousseau Leaves for Orient, But Bride Stays Behind With Rancher.**

PASADENA, Sept. 20.—While her trousseau is on its way to San Francisco today to be transhipped to Manila, where she was to have become the bride of Lieutenant Albert Stevens of the army, Miss Elizabeth Merrithew, now Mrs. J. H. Pettit, is on her honeymoon with the man in whose favor she changed her mind just a day before she was to have started on her long journey to the Orient.

Lieutenant Stevens plighted his troth to Miss Merrithew in Vermont before he went to West Point, and while she was a high school girl. Pettit came into her life six months ago while his sister was a patient in a hospital. Miss Merrithew maintained her purpose to wed Lieutenant Stevens until the day she was to have departed with the trousseau for San Francisco. Then she changed her mind and decided she would rather be Mrs. Pettit than Mrs. Stevens, the wife of an orange rancher in California than the bride of a soldier in the far off Philippines. Then it was too late to stop the trousseau, and it is on the way.

## NAVY TO TRY NEW SCORING TARGETS

**Each Shot to Be Registered by Electricity at Mare Island.**

VALLEJO, Sept. 20.—The Bureau of Ordnance of the Navy Department has arranged for the purchase of four Ellis self-scoring small arm targets for distribution to the rifle ranges at the local navy yard, the naval academy at Quantico and Winthrop, Md., with a view to having them thoroughly tested to determine whether or not they would be a useful adjunct to the ordnance outfit of a vessel.

The Ellis target is the invention of Lieutenant Commander Mark St. Clair Ellis, the officer in command of the Mare Island magazine and the target tests that have thus far been made of it by the army and navy indicate that it is far in advance of the ordinary butt for the purpose of training enlisted men to become skilled marksmen. It would be a great advantage, say the local officers, to have a target which could be readily landed and used for small-arm practice.

The mechanism consists of a number of designating plates made of specially treated vanadium steel, cut to the size and shape of the target. These plates are guaranteed to stand the impact of the new Springfield bullet indefinitely. They are suspended from a central holding spindle by steel radial springs. Back of the designating plates is placed a steel shuttle board, which holds the contact making members. When struck by the bullet the plate which is hit yields slightly against the spring, the contact members shuttle flies backward and completes the electric circuit. The electric circuit actuates an annunciator made up as a replica of the target itself, which is set in close proximity with the men firing. An electric feedback returns the drop to its original position at the will of the operator, and the target is thus ready for the next shot.

"O Lord God, to whom vengeance belongeth, show Thyself, lift up Thyself, thou judge of the earth: render a reward to the proud. Lord, how long shall the ungodly triumph? They slay the widow and the stranger, murder the fatherless and the poor. The Lord shall not see, neither shall the God of Jacob regard it. Unless the Lord had been my help, my soul had almost dwelt in silence. In the multitude of my thoughts within me Thy comforts delight my soul. But the Lord is my defense and my God is the rock of my refuge. He shall bring upon them their own iniquity and shall cut them off in their own wickedness."

The ninth recital will take place Monday, September 30. Miss Dorothy Kent and Mr. James Macdowell will be the assisting artists. The tenth and last recital program will be made up of numbers requested by the audience.

## FRESNO INVADED BY ARMY OF ROBBERS

FRESNO, Cal., Sept. 20.—Two more hold-ups late last night made a total of seven that have occurred during the last thirty-six hours in this city. Louis White, a rancher, living west of Fresno, was held up and robbed of \$8.20 in cash and a gold watch, and an hour later Roy Lamay was arrested by the police and charged with the theft.

About 1 o'clock this morning M. Chanessian, owner of a lunch wagon, was returning home when he was approached by two strangers and exchanged five shots with them. One bullet passed through his coat, and he thinks one of the robbers was hit.

## Every Child Should Be Given This Tonic

When children have no appetite; when they are continually peevish and irritable; when they are restless in their sleep; it is almost a certain indication that their digestive organs are troubled with worms or other parasites. This is a very common ailment and easily remedied. Physicians will tell you that nearly every child is so troubled at some time, and in fact, many adults suffer in the same way. Among adults this trouble is invariably referred to as indigestion, when in reality it is due to a small parasite which infests the intestinal tract.

For children, Jayne's Tonic Vermifuge is unexcelled, as it is not only destructive to these parasites, but completely removes the nests in which they young are deposited. Seldom does it purge, and the improvement in the health of the child will be the first and best indication of the beneficial results of the medicine. Not only will the Vermifuge destroy all the parasites, but its wonderful tonic effect will restore the digestion which has been impaired.

For children, the addition of a little sugar will make it so palatable that they will take it readily. Millions of parents have praised it for more than eighty years. Insist on Jayne's, except no other. Sold by druggists everywhere. Dr. D. Jayne & Son, Philadelphia, Pa.

# Nervousness

Mrs. H. Gaudreau, of No. 837 West Thirty-sixth Place, Los Angeles, Cal., owes her complete recovery from nervousness to the use of Dr. Williams' Pink Pills. Her cure should convince every sufferer of the value of this remedy.

"When I was fourteen years old," says Mrs. Gaudreau, "I had a severe attack of diphtheria. As I was recovering from the disease and got so I could walk just a little, I suddenly became weak and numb all over. I was perfectly helpless in bed for three months. I couldn't speak above a whisper and could eat nothing but liquid foods. I couldn't use my arms or legs, was numb all over and had no feeling at all.

## Doctor Called It Paralysis

"The doctors told my mother that I was suffering from paralysis and that they thought I would never get well. They did not help me and as my mother had often read about Dr. Williams' Pink Pills she decided to have me buy them.

## Pink Pills Helped at Once

"I hadn't taken many boxes before I could see that the pills were helping me a lot. In six or eight weeks' time I could sit up in bed and could use my arms a little. I used them all I could and as I grew stronger all of the time, I got full use of them. I was longer in learning to walk but finally was able to do this too. I used the pills until completely cured and have had no signs of the trouble returning."

## HONEYMOON SHIP ARRIVES IN PORT

NEW YORK, Sept. 20.—A honeymoon ship, designed especially for the blissful first voyages of bridal couples, and incidentally the largest vessel of the motorboat type in the world, came into port yesterday. She is the Christian X of the Hamburg-American line, which came from West Indies. The boat is 370 feet between perpendiculars, with 53 feet beam and 9500 tons displacement. The vessel has no smoke stacks, being propelled by gasoline motors.

The boat may be chartered by a single honeymoon couple, as in the case of a New York couple who for \$25,000 have engaged it on its return trip to New York for a trip to the West Indies, or by a number of couples together. It has 11 bridal suits.

## Helps to Keep the Home Clean

Floor coverings are the natural accumulators of dust and dirt—especially coverings made of wool, cotton and other fabrics. And in cold, disagreeable weather it is not always safe and convenient to take up and have cleaned your coverings—much to the discomfort of the careful housewife.

There is one class of floor coverings, however, that can be kept perfectly clean and sanitary at all seasons, with little effort. That's the CREX quality—wire-grass rugs, runners and carpets.

CREX wire-grass is impervious. Dirt and dust sifts through to the floor. A gentle shake, followed by brushing with a damp broom is all that is required.

The popularity of CREX floor coverings is international. Particularly discriminating housekeepers in all parts of the world recognize in CREX products true sanitation, natural beauty, exceptional durability and real economy. You will find these coverings in the most expensive as well as in modest homes.

There are other grass floor coverings that resemble CREX and sometimes when the dealer cannot suit a customer in pattern, color or size, a substitute is offered. You need not accept as the dealer can obtain for you just what you want from a nearby jobber. Insist upon the genuine CREX and you will not be disappointed in fibre floor coverings.

## FAMINE PRICES PAID BY BREWERS

Crop Committee Offers Advice to the Farmers of United States.

BOSTON, Sept. 20.—One million dollars a year awaits the farmers of every grain-growing county in the United States in return for more scientific and business-like management of the farms, said the crop development committee of the United Farmers Association in its report today at the association's fifty-second convention.

Brewers are facing famine prices for raw material because the increasing demand of mashing barley and decreased production of it in 1912.

The withdrawal of land from cultivation, said the report. The committee reported that the United Farmers Association has been successful in securing for the farmers of the United States a price of 25 cents for bushels of grain.

## SAGE TEA DARKENS THE HAIR AND RESTORES COLOR TO GRAY HAIR

Cures Dandruff, Stops the Hair from Falling Out and Makes It Grow.

There is nothing new about the idea of using Sage for restoring the color of the hair. Our grandmothers kept their hair dark, glossy and abundant by the use of a simple "Sage Tea." Whenever their hair fell out or took on a dull, faded or streaked appearance, they made a brew of Sage leaves, and applied it to their hair with wonderfully beneficial effect.

Nowadays we don't have to resort to the old-time tiresome method of

gathering the herbs and making the tea. This is done by skillful chemists better than we could do it ourselves, and all we have to do is to call for the ready-made product, Wyeth's Sage and Sulphur Hair Remedy, containing Sage in the proper strength, with the addition of Sulphur, another old-time scalp remedy.

This preparation gives youthful color and beauty to the hair, and is one of the best remedies you can use for dandruff, dry, feverish, itching scalp, and falling hair. Get a fifty-cent bottle from your druggist today, and you will be surprised at the quick results. All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented. Agents, The Owl Drug Stores.

### FIGHTS TO SAVE DAUGHTER'S LIFE

Mother Prevents Despondent Woman From Committing Suicide.

SAN FRANCISCO, Sept. 20.—Summoning all of her reserve strength to her aid, a mother struggled in a desperate fight to prevent her daughter from committing suicide at an early hour this morning and as a result of her efforts saved the young woman's life. Mrs. T. E. Sipe of 223 Precita avenue had a quarrel with her husband at 1 a. m. and after bitter words the latter left the house, leaving his wife weeping.

With her brain in a whirl and cut to the heart by her departure, Mrs. Sipe seized a razor and slashed at her throat just as her mother rushed in. The woman struggled with her daughter and finally succeeded in disarming her after she had inflicted two wounds in her neck.

Mrs. Sipe's children, a boy and a girl, aged 10 and 11 years, screamed at sight of their mother's condition and aroused neighbors who summoned Dr. F. Griffin. When the physician arrived he summoned an ambulance and Mrs. Sipe was conveyed to the General Emergency hospital.

Sipe would say nothing of the cause leading up to her quarrel. Dr. Harrison, who treated her, says that she will recover.

### RELEASE WOMAN; OFFICER ACCUSED

Mrs. Herzog, Freed of Charge, Will Appear Against Collins.

SAN FRANCISCO, Sept. 20.—Police Judge Shortall today dismissed the charge of disturbing the peace preferred against Mrs. Olga Herzog, arrested yesterday by Policeman J. Collins, whom she charged with beating her cruelly. The court did not investigate the story of Mrs. Herzog's son, whose alleged whipping at the hands of Collins caused Mrs. Herzog to interfere and brought about her apprehension.

Following her dismissal of the case which resulted from statements made by witnesses corroborating Mrs. Herzog, the woman was instructed to appear tomorrow night before the district attorney together with her husband. Assistant District Attorney Betsey intends to make a full investigation and it is possible that Collins will have to face charges before the police commission.

### KEY ROUTE NOT OPPOSED TO S. P.

Vice-President Alberger Issues Statement to People of Richmond.

RICHMOND, Sept. 20.—In view of the fact that the Oakland and The People's Company of the Key Route and the Key Route of the Southern Pacific Railroad has built tracks across streets where the new Southern Pacific station will be built in this city, and the construction and extension thereof, the people of Richmond, naturally, representing the city council and of the people, express their opposition to the Key Route Company yesterday in Oakland and took the matter in detail with Vice-President W. R. Alberger, who made the following statement:

"Our company has the right to lay its tracks on Ashland avenue across Cutting boulevard, and has today written to you City Engineer Farley explaining the matter fully to him. There seems to be a large amount of agitation over the situation and apparently the citizens of Richmond have an idea that we are doing something that is improper. When we know the truth the will fully appreciate that we are entirely within our rights. Our company has no objection whatever to obstructing in any way the progress or the growth of Richmond. The people of Richmond certainly realize that our company is the one public utility that has always supported Richmond and to the best of its ability assisted in its growth. Simply because the Southern Pacific proposes to build into Richmond does not mean that our company is going to discontinue its policy of helping to build up your section. We are not opposed to the entry of the Southern Pacific into Richmond, but we are glad to see that the additional service that will be furnished by that company will cause more rapid development and our company in turn will receive its share from the profits of that development."

There is no apparent reason for the 'Traction Company' building across Cutting boulevard, other than as an obstruction to the progress of the Southern Pacific, and since Alberger states for his company that they are not opposed to the coming of that company, but are glad to see that the additional service that will be furnished by that company will cause more rapid development and our company in turn will receive its share from the profits of that development."

## SECRET REVEALED BY LOST WILL

Document When Found Discloses the Engagement of Writer and Mrs. Huson.

The finding of the "lost will and testament" of F. W. Whitmore yesterday in the Sausalito waiting room caused considerable speculation for a time as to the safety of the author and at the same time disclosed a little secret which Whitmore and the party most intimately concerned thought to keep to themselves for a while.

The will was dated "Oakland, September 14," and reads:

"To whom it may concern: I leave everything of which I do possess to Mrs. E. M. Huson, sometimes known as Mrs. 'Daddy' Huson, and desire and direct that said Mrs. Huson is appointed my executor."

Upon investigation it was found that Whitmore is not dead, as was at first supposed, but is engaged to Mrs. Huson. The will was made last Sunday at the home of the bride's sister, Mrs. Fred L. Hoffman, 741 Eleventh street in the presence of Mrs. Charles Hart of Mill Valley, mother of Whitmore's fiancée and Mrs. Hoffman. Mr. and Mrs. Hoffman affixed their signatures as witnesses to the document.

While returning across the bay to his home in an Eddy street apartment house, the will dropped from Whitmore's pocket. So, the secret is out and the wedding date, it is rumored, is not far off.

## T. C. FRIEDLANDER TO TOUR EAST

## 'PHONE PREVENTS SEATTLE MURDER

Police Too Quick for Man Who Sends Threat by Wire.

SEATTLE, Sept. 20.—"How many years will you give me if I kill Dave tonight?" When the telephone operator at police headquarters heard that question he switched the call to the desk sergeant and rushed himself in tracing it to a saloon. While the desk sergeant held the inquirer in consultation, a motorcycle officer was shot out to the saloon. There he found Joe Gruger, a blacksmith, on the wire. He was telling the sergeant how he had been saddled with a bad debt two years ago. The officer searched him, took a pistol from his pocket and arrested him for carrying concealed weapons. In his cell today Gruger is greatly puzzled to know what brought about his arrest.

## CANADA WOULD PATCH UP ITS TARIFF WALL

OTTAWA, Sept. 20.—Extensive changes in the Canadian tariff designed to effect a more complete protective wall for Canadian industries will be urged upon the government by the Canadian Manufacturers' Association, which meets here next week. The steel interests and woolen manufacturers are particularly active.

Two distinct forces will clash on the tariff question at the coming session of Parliament. One is the group of conservatives who are high protectionists, while the West are low tariff men.

## NEW STEAMER LINE TO REACH THIS COAST

NEW YORK, Sept. 20.—That a new direct passenger steamer service between England and the Pacific coast via Panama will be one of the outgrowths of the canal's opening is the belief of E. J. M. Nash, managing director of the Royal Mail Steam Packet Company. Nash sailed for Europe today on the Adriatic, after several weeks spent in looking over the Pacific coast as a possible passenger and freight field. He visited San Francisco, Seattle and Vancouver.

## PLACED LIMIT ON SPEED.

PHILADELPHIA, Sept. 20.—The Pennsylvania Railroad has issued an order restricting trains on all points of the road from exceeding seventy miles an hour. Special orders have been given as to speed on curves at various points. It is stated that the new rule will not affect the present schedules of any trains.

# PAST FIFTY? YOU NEED 'CASCARETS'

What Glasses Are to Weak Eyes, Cascarets Are to Weak Bowels.

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so elastic as youth. The muscles are less active, and the bowels are muscles. So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip all bowels into activity. But a laxative must be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets and they cost only 10 cents per box at any drug store. They work while you sleep.

# CONTRACT BRIDE GLAD TO BE AT WORK BELIEVES WOMEN SHOULD AID HUSBANDS

MRS. CARLETON W. WASHBURNE, WHOSE REMARKABLE AND UNCONVENTIONAL PRE-NUPITAL CONTRACT HAS ATTRACTED WIDESPREAD COMMENT.

# Mrs. Washburne Denies Mother Is Prostrated Over 'Disgrace' of Marriage

PASADENA, Cal., Sept. 20.—"Oh, I am delighted with work," said Mrs. Carleton W. Washburne, bride of the wedding which was prefaced by what is usually considered to be an unconventional pre-nuptial contract, as she returned from her first day's work.

"I believe women should work with their husbands, in order that their minds may run along similar channels, and women may show their equality by earning a portion of the household expenses."

"My work is thoroughly pleasant, and I enjoyed every moment of it. I am going into the work full heartily and with a determination to gain fame. I am a designer and illustrate the magazine with which my husband is connected."

"The accounts of my mother being prostrated and moaning over the disgrace I have brought upon her are merely trash. I have received several telegrams of congratulation and commendation from my mother since my marriage."

Mrs. Hogan collapsed when she read that her husband had met death in a railroad wreck at Germantown, N. Y., but the boy, who had previously secured the mother's signature, stoically trudged back to his office with his receipt book.

## OAKLAND'S BOYS AND GIRLS

### OROZCO'S GIRL BEGS TAFT TO SAVE HER GRANDFATHER

LOS ANGELES, Sept. 20.—Fearful lest the fortunes of war toss her father into the hands of the United States as it has her grandfather, Elena, the pretty 7-year-old daughter of General Pascual Orozco, who is living with her mother, brothers and sisters in temporary exile in Los Angeles, has laboriously penned a pathetic letter to President Taft, in which she begged for her grandfather's life and the chief executive of this nation that her father was a soldier fighting for his country, and not a murderer.

The letter was written on the front steps of her home at Twenty-seventh street and Grand avenue. Her mother sat beside her.

Inside the dwelling a small boy and an elderly little woman, the little girl's mother, General Orozco, lay seriously ill. The boy is said to be pining for his father, whose playfellow he was before the war. The elderly woman is broken down under the strain of having a husband and a son in the field for many months. So ill is she that her daughter-in-law, Mrs. Orozco, has been obliged to attend to her.

Orozco's arrest by United States troops at the border.

Elena's letter was penned to the President in Spanish.

"Dear Mr. President Taft," she wrote. "My papa is not a murderer. He is a brave soldier fighting for his country. Please don't let the American soldiers give my grandpa to Mr. Madero, for Mr. Madero would shoot him and that would kill poor grandpa."

The Orozcos have moved four times since coming to Los Angeles and each time at the advice of men close to the general. It is said Mrs. Orozco lives in daily dread of the Federal commanders of the Mexican armies getting possession of her children in some way.

When the Orozco family between the firing lines during battle if ever they could lay hands on them.

### STAGE WANTS TINY SWIMMER

NEW YORK, Sept. 20.—Offers of valuable engagements continue to pour in on little May Miller, a child swimmer who has made a name for herself by swimming down the Hudson river, and across the Atlantic ocean.

### HIGH SCHOOL MISS NO LONGER TO WEAR GEMS

LOS ANGELES, Sept. 20.—Hereafter high school girls shall not wear secret society emblems, jeweled pins, necklaces, jeweled chains, necklaces or any valuable trinkets or ornaments. This is the rule promulgated yesterday by Mrs. Susan Dorsey, vice-principal of the institution, and must be abided by.

"The high school is no place for jewelry," Mrs. Dorsey declared. "It is foolish to wear valuable pins and rings in school, and is often disastrous. Often girls come to me weeping to say they have mislaid their rings. Another careless thing is to wear valuable pins and leave them on a coat in the cloakroom. It is dangerous and it is unsafe to place temptation in the way of any one, and good taste forbids the display of jewels on school girls."

"A girl wore her father's Masonic emblem to school and left it on her coat in the cloakroom. She never saw it again, and it was a real family grief, for the father was a member of the lodge."

What's the use of girls wearing their fathers' pins, anywhere?"

### CHRISTIAN HOUSES IN ALBANIA SACKED

LONDON, Sept. 20.—A dispatch from Podgeritz, Montenegro, says refugees from Gashin, Albania, report that the Christian houses in the town were sacked, the villagers terrorized and the Christian population desperate. Similar reports come from the neighborhood of Ipek.

### MAY MILLER.

NEW YORK, Sept. 20.—Offers of valuable engagements continue to pour in on little May Miller, a child swimmer who has made a name for herself by swimming down the Hudson river, and across the Atlantic ocean.

## The One Truly Artistic Player-Piano

Every intending buyer of a player-piano should see the Angelus before making a final selection. It costs no more to own the best, the most artistic of players, than the indifferently good, and the Angelus is so far superior in construction, in ease of control, in perfection of musical results, as to place it a generation in advance of its competitors.

There are two kinds of player-pianos—the ANGELUS AND THE OTHER kind. No other player has the "MELODANT," the marvelous device which separates melody and harmony just as in hand-playing. None has the PHRASING LEVER, which places the entire control of phrasing under THE TOUCH OF ONE FINGER. No other player has the diaphragm pneumatics, the automatic, self-opening and closing pedals; no other permits the use of EVERY MUSIC ROLL MADE, and none gives such perfect musical satisfaction.

Seeing and hearing the Angelus enables the buyer to make intelligent comparison. Therefore do not neglect your own interests.

Angelus player-pianos are no more expensive than the ordinary types of players, and may be purchased on easy payments. Your old piano taken in exchange at its full value.

# HEART--TRIBUNE'S PAGE FOR WOMEN--HOME

ONE of the smartest social events of the year was Mrs. Harry East Miller's reception today when nearly 400 fashionable folk of the bay cities called in honor of Mrs. Thomas Watson and Miss Marjorie Mhoon. ## WOMEN IN THE NEWS

### FOSTERS COMING TO RESIDE IN CALIFORNIA

Former Margaret Calhoun and Husband Find This State Best.

SAN FRANCISCO, Sept. 20.—It is an old saying that once a Californian always a Californian, and so society is not marveling so much as it might at the sudden announcement that Paul Foster and his bride of a year, who was Margaret Calhoun, have given up their home in Cleveland and are returning to live within sound of the surf-beat of the Pacific.

What society is really gossiping about over its tinkling teacups is the motive which is bringing them back. Young Foster and his wife have found the real estate business in which, entered in Cleveland after his wedding not very much to their taste and they are coming back in response to a call to the primitive.

They are to build a new home on the lands of Mrs. Foster's father, Patrick Calhoun, the traction magnate, near Fairfield, and Foster, who was trained in the university for civil engineering and has tired of ready commerce in Cleveland, is going to get into overalls and blue flannels to cultivate the soil.

In his entrance into the role of gentleman farmer Foster is reverting more or less to type, for although his father, A. W. Foster, is a railroad president and one of San Francisco's best known financiers, he is a large holder of ranching lands in Marin, Sonoma and Mendocino counties, and at the Foster home in San Rafael, "Fairhills," has given place to his agricultural tastes in stock raising, floriculture and gardening.

It is expected that Paul Foster and his wife will not return to San Francisco until after October 12, the date set for the wedding of Mrs. Foster's sister, Miss Martha Calhoun, to Wilson Hickox of Cleveland. Miss Marian Newhall, who was a chum of the Calhoun girls in their debutante days a few winters ago in San Francisco, is now preparing to leave for the wedding.

### Fight Flames

SANTA BARBARA, Sept. 20.—A grass fire in the San Ysidro canyon yesterday afternoon threatened the town of Montecito and Santa Barbara, forest rangers, but due to the efforts of a number of society women and many men the flames were extinguished before much harm had been done.

The fire was noticed about 1 o'clock, having started from a lighted cigarette that was thrown into underbrush, and in a few minutes nearly all of the people at the Montecito foothills were fighting the flames.

Among those who took an important part in the fighting were the Misses Helen and Martha Hosmer and Mrs. W. S. Conklin, popular members of the smart set. Superintendent Slosson of the forestry department was preparing to send rangers to the scene when he learned that the volunteers had put the fire out.

### Tells of Cruelty

RENO, Sept. 20.—Given a decree of divorce from Harry Hirschbach, assistant social director at the Waldorf-Astoria, New York, Frances Augustus Jackson yesterday permitted to resume her maiden name of Jackson after testifying to desertion on the part of her husband.

As she concluded her testimony the woman broke down after her husband told her, two months after her marriage, she was taken desperately ill and was refused medical attention. Her husband, she said, left her in their apartments unconscious. The janitor learned of her condition and telephoned to her mother, but her mother could no longer pay her expenses, while still convalescent she went to work as a stenographer and took her husband back, intending to share expenses with him. But returning one day less than a week later she found her husband's husband embracing and kissing an elderly music teacher. She thereupon left him. Miss Jackson's father is living in San Francisco, being divorced from her mother, who is living with him in this city. Miss Jackson testified that she broke an engagement to marry another New Yorker in order to wed the man she divorced yesterday.

### Not Engaged

PLACERVILLE, Sept. 20.—The story of the announcement of the engagement of Miss Blanche Kern of this city and Thomas Stewart of Oakland, which was printed yesterday in various newspapers, was not true. At the time of the supposed announcement at a party at the family home of Stewart in Oakland, Miss Kern was visiting her sister, Mrs. W. A. Jones, at Colusa.

She says that the item was sent to the newspaper correspondents by some one who was trying to perpetrate a joke upon her and that the correspondents had sent it in good faith. The story has caused her much annoyance.

### Plan Liberty March

LONDON, Sept. 20.—A march of liberty is the latest demonstration planned by the suffragettes of London, and start is to be made early in October and the route will be from London to Edinburgh. Speeches will be made at various places along the route and it is expected that some of the women traveling will carry banners and others on horseback, while carriages are to be provided for the infirm. Thirty suffragette organizations have expressed a desire to participate in the march.

### MINISTER FINDS THIEF ENTERING PARSONAGE

SAN FRANCISCO, Sept. 20.—The Rev. John H. Baker, pastor of the Archbishop Episcopal church, South, at 1577 Bush street, was about to enter his home next door to the church last evening when he discovered a burglar in the act of climbing into the bath room. Nothing daunted, he sprang upon the thief, the clergyman, who was armed with a knife, and hurled him in the air. The burglar had observed him, however, and dropping to the ground made his escape. Rev. Horn communicated with the Bush street police station and furnished a description of the thief.

## SOUL IN BEAUTY

By LILLIAN RUSSELL

(Copyright, 1912, by Lillian Russell)

WE read many criticisms by Western women upon the women of New York and the Eastern states. One alleged beauty from California declares that New York women lack soul. The only reason she gives for her opinion is that they are not laughing all the while.

She says that they are beautiful as buildings are, but their beauty is artificial, that they have no hearts, and are without the love of nature, which every real beauty must have as the foundation of worth.

This Western girl is right in the last statement and wrong in the first one. There is no beauty born without the love of nature strong in her. There is no normal woman who does not appreciate nature and all of its gifts.

If soul should exist in women of one part of our country and not in another, then God's work would be incomplete.

Beauty is as strong in New York as it is in California. And there is really less artificial beauty used in New York than is used in California, judging from what I have observed.

It is a bad plan to criticize beauty, as all real beauty is God given, whether it comes from California or any other part of the world.

Surely God does not pick out certain states to be particularly blessed with pretty women; they are everywhere, and are beautiful according to the amount of Godliness they have in them. Soul is in every human being, the more soul the more beauty.

Paint, powder and dyes are a small part of a beauty. They may be a necessity at times, but they are not additions to real beauty. Health, cleanliness and hygiene do far more for beauty than all the concoctions made by chemists.

Real generosity of nature will not be prejudiced; it will see beauty where it exists and glory in its existence.

Remember: Beauty is delightful to all who can realize God's work.

### Answers to Queries

NELLIE—You conflict cellulose spots with corns. Do not cut them with a knife. First try soaking your feet in hot water in which a large piece of washing soda has been dissolved. Then take a piece of pumice stone and rub the callous spots vigorously. If they do not yield to that treatment soak a piece of absorbent cotton in crude petroleum, bind it on the callous spot over night, and in the morning use the pumice stone.

I cannot give you any information about the article you mention, but would not advise you to use it without knowing more about it.

M. E.—It does not take much room to practice the rolling exercise. All you have to do is to roll completely over on one side and back on the other. Unless you are much of an invalid this exercise will not hurt you, although it will make you dizzy at first. Start it with rolling only four times each way and then add one more time each day until you get up to

twenty. I do not think that rubbing the ankles will diminish their size. Rubbing the body vigorously and picking up the flesh with the fingers and breaking up the fat cells with camphor is good. There are no baths that will reduce the flesh without exercises and diet. It seems to me from your letter that deep breathing will do you more good than anything else, and if you would add to this walking in the open air I think you would get back your strength.

Send me a stamped addressed envelope and I shall send you instructions for deep breathing.

P. A.—If your hair is inclined to be excessively oily, you should let the hair hang loose down the back and sit in the sunshine. This allows the sunshine to get at the scalp and helps to dry up the excess of oil. Once a week use the following lotion, which is really more of a cleanser than a stimulant: One-fourth ounce bicarbonate of soda, one-fourth ounce of borax, two ounces cologne, one ounce rectified spirits, one-half ounce tincture of cochenille, and sixteen ounces distilled water. Mix the ingredients and shake thoroughly. Rub it into the scalp freely, using it as you would a tonic, only applying plenty of it, and then let the hair dry in the sunlight.

If you care for it send me a stamped addressed envelope, and I shall gladly send you formula for a shampoo for oily hair, also a simple treatment by which a number of my friends have developed their busts.

DORA—If you are troubled with an oily skin you should avoid all greasy foods, especially veal, pork, pastry, fried vegetables or meats. Vegetables, fruits and salads should form part of the daily meal, and all food should be thoroughly masticated. Wash your face thoroughly every night with warm water and a pure soap, then apply an astringent lotion.

I have the recipe for an excellent astringent lotion that will remedy oiliness of the skin and correct coarse pores, which I shall be happy to send.

If you will send a stamped addressed envelope and write me a note asking me for it.

MISS JANE—Ice is excellent for the skin. It closes the pores and makes the skin firm. A famous physician recommends applications of cracked ice to the face and throat after a hot bath. I often leave an ice pack on my neck for ten minutes at night to make the skin firm and glowing before I put in a good skin food.

I am mailing you the formula for the skin food, with directions for massage.

## BATTLE OAKLAND IS WAGING RECEIVES PUBLICITY

'APPEAL OUR OWN,' AVER  
NEWSPAPERS OF STATEBAR PROPOSED  
POLITICAL  
TRUST

Denison, in Los Angeles Express, Declares Sectionalism Must Cease.

Truth Hammered Home by  
Richmond Record-Herald  
and Others.

Oakland is receiving publicity of priceless value as the result of the popular fight in behalf of the great state at large as against its political dominance by San Francisco and Los Angeles. Almost every newspaper in California, whether it is hostile, lukewarm or allied with Oakland, is printing this city's appeal to the state, and discussing in detail the wonderful campaign which the Alameda County League is making.

**OAKLAND'S APPEAL FOR OWN.**  
Here is what the Pasadena Star has to say under the heading "Oakland's Appeal Our Own":

(FROM THE PASADENA STAR.)  
Alameda county's anti-annexation league is putting up a strong fight against the proposed amendment to the constitution providing for the formation of a political trust by permitting San Francisco and Los Angeles to absorb certain desired territories contiguous to each of the two centers. Irrespective of the wishes of the people of Oakland, the state will not calmly submit to her loss of individuality and is engaged in a statewide campaign of education pointing out to the electorate the menace to the commonwealth in permitting two such cities to dominate the state through their joint legislative representation.

There is good argument in this since it is an appeal to the principle of self-preservation. Oakland, naturally, combats what would prove her loss of individual prestige, her subservience to the greater political power, the prospective bonded indebtedness that would be thrust upon her.

**FATE OF OTHERS.**  
And what would happen to Oakland would in a smaller degree be the fate of Alameda, Berkeley and Richmond, whose miles of waterfront would be brought under the control of the dominant city on the other side of the bay. Such a monopoly might readily prove of serious disadvantage to consumers and producers all over the state, to the extent, even, of denying to the whole people the benefits of the completion of the Panama canal by retarding harbor improvement and throttling ocean competition.

Oakland's fight is Pasadena's fight. What may happen to the thriving metropolis of Alameda county may also be the fate of this city if the proposed invidious amendment is adopted, for the bill is so worded that the right of initiative is denied by a trick of verbiage.

**OVERRIDING WISHES.**  
In voting upon proposed consolidation of cities or counties the majority of the entire territory shall decide, and who can doubt that San Francisco, with her preponderant vote, will override the wishes of the east side bay cities, in the same way that Los Angeles will nullify the efforts of Pasadena and other indifferently desired territory to resist the merger. San Francisco already has an authorized bond issue of \$35,000,000. To carry out her plans she must have an additional \$65,000,000 which the defenseless bay cities must help

DR. H. B. MEHRMANN, WHO IS ON THE FIRING LINE IN THE FIGHT AGAINST ANNEXATION.

to provide. That is the Los Angeles case, already bonded to the limit. She must have millions more, and Pasadena and environs are to be the "goats." It is a time for girding up of loins for a united and decisive rejection of this menacing initiative amendment to be voted on November 5.

**THE IMPORTANCE OF OAKLAND.**  
Even the city of Los Angeles is disposed to regard the importance of Oakland as justifying a full account of what this city is doing. The Los Angeles Express displayed the following interview with A. A. Denison on September 14. The article was "played up," to use a newspaper expression, meaning that the heading was in heavy type, designed to attract attention of every reader. The article is reprinted in order that Oaklanders may have the satisfaction of seeing how Oakland is being advertised by a city which makes a specialty of tooting its own horn.

(FROM LOS ANGELES EXPRESS.)  
It is high time for sectionalism to cease in a state with such magnificent resources as California, declares A. A. Denison, the all-California booster, secretary of the Oakland Chamber of Commerce.

I am beginning to feel almost as much at home in Los Angeles as in Oakland, says Denison, and I never come to this city but I get a new baptism of enthusiasm for this splendid state. Talk about jealousies between cities in a domain that should support 30,000,000 people, where we have 3,000,000 today. It is absurd! There is work for all of the cities of California in getting ready for the incoming tide of immigration and investment on the completion of the Panama canal.

**BUSINESS ENOUGH FOR ALL.**  
There will be business enough for all the cities of California, and they should stop bickering, and boast. That is what we are doing in Oakland. Los Angeles is entitled to the pre-eminence it has obtained and the prosperity it enjoys as the result of its enterprise. You will have built

up your contiguous territory and made all the world your back country. We of Oakland glory in your gift and in your growth because all of California profits through the campaign of publicity which Los Angeles constantly carries on.

In Oakland and the other cities opposite the Golden Gate, which are the open door to the Orient and to Panama, for central, as Los Angeles is for Southern California, we are trying to emulate your municipal enterprise. Oakland is engaged in harbor improvements which are to cost \$20,000,000 and will give it 27 miles of dockage facilities where car and ship can come together. The inner harbor is being dredged to a depth of 35 feet along the quay-wall on which the municipal belt railway is to run.

**SPENDING MILLIONS.**  
The cities of the east bay shore are making marvelous progress in industrial and commercial expansion and increase in population. They are expending millions of dollars for new schools, for parks, for boulevards and municipal buildings and betterments. Today there are 285,000 people in these cities. The Oakland and Antioch Electric system soon will link Oakland with the Sacramento and the San Joaquin valleys and do for us what the Pacific Electric has for Los Angeles. With these and other important projects in progress we are usually apprehensive of anything which will interrupt an element of uncertainty, and delay or defeat developments by which the whole state benefits.

The commercial and financial interests of these cities and of Alameda and Contra Costa counties have therefore organized to defeat the initiative constitutional amendment designed to facilitate consolidation of cities and annexation across county lines, permitting San Francisco to absorb our commerce, our

SEEKS HELP IN  
PAYING OFF  
BIG DEBT

One Object of San Francisco's  
Annexation Scheme Is to  
Lighten Burden.

Public Administrator Gives  
Reasons Against Passage  
of Pernicious Act.

By DR. H. B. MEHRMANN,  
Public Administrator of Alameda  
County.

There is always a time when one needs the assistance of every friend he has and I feel that this is one of those occasions when we should enlist the earnest co-operation of every personal friend we have throughout the state to help us defeat proposed constitutional amendment No. 3. The people will be called upon to vote on this measure at the coming election. The amendment has for its object the consolidation of the east side of the bay with the city of San Francisco.

We who call Oakland our home city and love her as we do would consider the adoption of the proposed amendment a calamity.

Oakland is progressing most rapidly. Her population is increasing immensely and her people are contented. We are satisfied to proceed in the manner in which we are now proceeding and thriving. We stand upon our American rights of freedom and home government and believe we have demonstrated that we are capable of taking care of ourselves, of governing our people and our city progressively and successfully.

**BURDEN OF DEBT.**  
We are ready and willing at all times to assume any public debts that may be necessary to advance the city and place her among the first cities of the country, where she belongs, but we are unwilling to assume the debts contracted by other communities.

San Francisco has taken upon herself the payment of an enormous indebtedness in her drive to an extension of her territory. The debt is greater than the laws of the state permit—I believe somewhere near the tune of ten millions of dollars. Now it is her wish and her purpose that she be permitted to unload this indebtedness upon the taxpayers of the east bay cities, which this constitutional amendment, if approved by the voters, will enable her to do. In other words, if the amendment is carried and we are annexed to San Francisco, we will be forced to assist her in paying off her indebtedness.

Our bonded indebtedness is far within the limit of our bonding capacity, but if we were forced to share San Francisco's debts our margin of credit would be swept away and we would be in as bad a financial fix as the city across the bay.

This is one of the reasons why the proposed amendment would be voted down and one that I consider of great importance.

**AMENDMENT NO. 3.**  
(By WILL D. SIMMONS JR.)

Many communities are born for annexation, others acquire annexation and some have annexation thrust upon them. In order to endeavor to save the city of San Francisco from the fate of the east bay cities, which this constitutional amendment, if approved by the voters, will enable her to do. In other words, if the amendment is carried and we are annexed to San Francisco, we will be forced to assist her in paying off her indebtedness.

Our bonded indebtedness is far within the limit of our bonding capacity, but if we were forced to share San Francisco's debts our margin of credit would be swept away and we would be in as bad a financial fix as the city across the bay.

This is one of the reasons why the proposed amendment would be voted down and one that I consider of great importance.

Many earnest people are wondering why San Francisco should want to annex Oakland and why Oakland should have other plans. A great many haven't time to read Amendment No. 3 or to translate it into common sense. If they did, in this particular instance it is easy for father, brother and son to see the result. One is continually beset by argument and it all seems to hinge somewhere around that pesky Amendment No. 3. And when one doesn't know, let it be forcefully said that Amendment No. 3 is all that should be shunned by amendments. It is infamous, villainous, scandalous, outrageous and other things that can be imagined.

BLUE-BOOK CABINET  
TO DIRECT AUXILIARY  
Most Influential Women of Oakland and  
Vicinity Named as Advisers

The Woman's Auxiliary to the Alameda County League, which is conducting Constitutional Amendment No. 3, has announced its strength today by announcing an advisory board which includes the most influential women of the great east bay territory.

As now constituted the advisory board includes in addition to its President, Mrs. Frank K. Mott, and its Secretary, Miss Mollie Connors, the following "cabinet officers," who will direct the destinies of the league, and pass on all matters that pertain to the campaign:

**MRS. T. L. REQUA.**  
Member of one of Oakland's oldest and most respected families. Founder of many charitable organizations. Leader in local relief work at time of Spanish-American war.

**MRS. CHARLES S. CHAMBERLAIN.**  
President of influential Oakland club, member of Fabiola hospital board, and moving spirit in Y. W. C. A. work in many ways.

**MRS. HENRY WETHERBEE.**  
Known throughout state as one of the most influential and philanthropic women of California. The Wetherbee home at Fruitvale is one of the show grounds of the east bay country.

**MRS. THOMAS HOGAN.**  
President Providence hospital auxiliary, past president Catholic Ladies' Aid society; prominent in charitable and church work of every description.

**MRS. SARAH C. BORLAND.**  
Leader in Woman's auxiliary of G. A. R.; chairman civic section Eboli club; known as best campaign speaker among the women of Northern California; leader in Civic club.

**MRS. CHARLES H. KING.**  
Member of Eboli club and representative of the vast King estate, probably one of the heaviest taxpayers in the county.

**MRS. CORA E. JONES.**  
Former president Oakland club; member of executive committee State Federation of Women's Clubs; known throughout California.

**MRS. CHARLES LELAND SMITH.**  
Vice-president Eboli club; able writer, and wife of leading merchant.

**MRS. H. G. CAPWELL.**  
Past president of Home Club; prominent in club activities, charities and wife of capitalist and merchant prince.

With such an advisory board it is believed that the league will present the most powerful front of any organization Alameda county has ever seen. All the women who have been selected were chosen for their peculiar fitness for the position; their influence, experience, prestige and wide personal acquaintanceship making them invaluable in the crisis that confronts Oakland.

Miss Mollie Connors and Mrs. Frank K. Mott are ex-officio members of the board, which will meet every week to

pass upon all matters that require their attention. A sub-committee of three will be named in a few days to handle the finances and audit all bills.

A mass of information is already pouring into headquarters concerning the progress of the movement and everywhere the women are meeting with encouragement.

**TO DO MISSIONARY WORK.**  
Robert H. McGill Jr., in charge of the publicity bureau of the Alameda County League, who has done efficient work against the project to annex Oakland and surrounding cities to San Francisco last night to an extended trip for the purpose of preaching the good cause among the newspapers of the interior. He will go first to Sacramento, where he worked for years in an editorial capacity, and thence to Marysville, Yuba City, Chico, Grizzly, Red Bluff, Redding, Corning, Colusa, Williams, Aracule, Woodland, Placerville, Auburn and Lincoln.

McGill will devote most of his time to missionary work with the editors and proprietors of newspapers, though doing some work also with other prominent men, and his object will be to point out to them the unfairness of the annexation plan, so that the interior of the State may be warned and take action in time. On his return from this trip he will visit Napa, Mendocino and Sonoma counties, and after that the cities of the San Joaquin valley.

**GERMAN-AMERICANS AROUSED.**  
The German-American societies of Alameda county, united in a meeting Wednesday at Germania hall, and denounced the attempt of San Francisco to force annexation upon Alameda county and surrounding territory. Twenty-one societies were represented, and the men and women present represented some of the most prominent German-American citizens of the county.

The principal speakers of the evening were Albert G. Kuehn, E. J. Kuehn, and George Kirchhoff, all of whom argued at length upon the unfairness of the methods employed by San Francisco, and pointed out the evils that would result to Alameda county if annexed.

Not content with this the meeting resolved itself into a sort of committee to do missionary work against annexation. Twenty thousand circulars will be printed in German, giving the arguments against annexation, and they will be circulated among the German-reading citizens.

**MEETING AT SCHOOL.**  
Tonight, at the Clausen school, there will be a big meeting in the interests of the cause. There will be a number of illuminating addresses and an interesting program. Chairman, E. J. Kuehn. A. A. Prates and others will address the people of the neighborhood, explaining the integrity of Amendment No. 3. Mrs. Prates has arranged the meeting and is organizing the residents of the district into an effective working organization. The Clausen school is at Thirty-second and Magnolia streets.

**Knox Dinner Guest of Japanese Economy.**  
Secretary of State to Breakfast With Premier and Leave Tokio.

TOKIO, Sept. 20.—Phlander C. Knox, who attended the funeral of the late Emperor Meiji, is the special ambassador of the United States, was the guest of honor at a dinner given tonight by Baron El-Ichi Shibusawa, a prominent economist.

PERKINS CASE

Cunha and Hanley Verbally  
Battle During Entire  
Session.

Lawyer - Witness Refuses to  
Answer the Questions  
Propounded.

SAN FRANCISCO, Sept. 20.—Timothy J. Crowley, attorney for Mrs. McNamara, wife of Nicholas J. McNamara, a San Mateo capitalist, was on the witness stand this morning during the trial of Cora L. Perkins and Fred Patterson, charged with the larceny of the McNamara automobile.

The refusal of the lawyer to give any evidence, on the ground that his relations with his client was sacred, gave opportunity for another wrangle between Attorney James N. Hanley, counsel for the defendant, and Assistant District Attorney Cunha.

The two lawyers fought back and forth, and were repeatedly rebuked by Superior Judge Dunne, keeping the proceedings at fever heat during the entire session.

**FAMILY IN COURT.**  
McNamara and his son occupied front seats on one side of the courtroom, while directly opposite were Mrs. McNamara and her daughter, Gladys, whose testimony yesterday was of considerable importance.

Crowley was asked by Attorney Hanley if it was not true that he had drawn up a will for Mrs. McNamara in which she cut out of her husband, Nicholas McNamara, from any participation in her estate, not even naming him executor, leaving all of her property to her children. This query he declined to answer, and he also refused to tell as to his conversations with Mrs. McNamara, who was sitting in the Key Route Inn, in Oakland, following her trip to Portland.

Several letters which Hanley sought to have introduced in evidence were ruled out by the court, and the entire hearing was devoid of any tangible results. The courtroom was crowded and the spectators evinced a lively interest in the proceedings.

# MAKES PLEA FOR RIGHT OF CHILD

### James E. Rogers of San Francisco Tells Students the Need of Playgrounds.

20-A Prior to playing funds for children was made at the University yesterday in an address by James E. Rogers, secretary of the San Diego Playgrounds Association. He declared that tracing the modern concept of playgrounds to the 19th century was not always an exact science, but for children's rights he asked to occupy a place in play. The address was given before the parents and teachers of the Rupp School District. The Rupp School District is a municipal and a political problem. The school district is the largest in the city of San Diego, the largest in the United States, which employs over 3000 trained experts and controls over \$200,000,000 in funds.

It has been proved by experience in the cities of New York, Boston, Philadelphia and other cities that public playgrounds are the largest preventives of juvenile crime known today. In a city section in the East where the incidence of juvenile crime decreased 50 per cent the last year following, Judge Lindsey of Denver has given his opinion that juvenile crime is decreased by the establishment of playgrounds is between 50 and 75 per cent.

It is the realization of the importance of this movement which has caused the directors of the national juvenile captionists' association to plan a national tour of the various playgrounds and juvenile captionists' associations.

the 1915 Exposition. Play is doing more than any other agency to make the right kind of citizens out of the foreign immigrant. The playground may be said to be the "melting-pot" of assimilation of our foreign immigrants into American life.

can citizens. The churches and schools are the agencies in the upbuilding of the character of our coming men and women. By experience and personal observation, I am convinced that the best habits and good habits can be better taught, and will have more effect on boys when in their baseball uniforms than at any other time, because the boys are always being told "next to the boy and influence his life."

Mr. Rogers also spoke of the whole problem of the young men and women with the eight hours most men and women, as well as children, put in in play. New York City has lately established public playgrounds, and Mr. Rogers is now trying to do at Trancadero Beach. Proper outlet for this spirit of play will prove a big help to the solution of the saloon, dance, and game and white slave problems, as well as that of our children.

## NEWMAN CLUB'S QUESTION BOX WELL PATRONIZED

BERKLEY, Sept. 20.—Rev. James M. Gillis, C. S. P., delivered the address at the Newman Club's evening series last night at Newman Hall on Ridge road. One of the interesting features of the series has been a question which has been well filled night by night. The address "The Catholic Doctrine of Holy Communion" was rendered. The vocation of Father Burke is to speak on "Temperance."

tested by the wide range of questions asked. For example: The Church's attitude in regard to Socialism, Free Masons, capital punishment, Christian Science, Sunday amusements: the explanation of the Angelus bell, the doctrine of the Immaculate Conception, the attitude of the church in regard to the readings of the Bible.

## CHINESE REPUBLIC SEEK ADVANCE LOAN

LONDON, Sept. 20.—The Peking correspondent of the Times says the Chinese government has been trying to obtain an immediate advance from the six powers group and is leaving untouched the installment of the London loan, which already has been paid over.

## BABY SHOW IS FETE FEATURE

Carnival to Close With Masquerade Ball and Confetti Battle.

A baby show and school children's parade were the chief attractions at the East Oakland carnival at Twenty-third and East Fourteenth street this afternoon. The festival grounds were thronged with sightseers and anxious mothers who had entered their babies in the contest. The baby parade marched through the main thoroughfare of the grounds and filed past the judge's stand where the winners were decided upon. The result will not be announced until late this afternoon. On the judge's bench, among others, were William Stewart and J. H. Mello. Other features of the afternoon's activities were the free attractions and the band concert. The carnival will close tomorrow evening with a masquerade ball and confetti battle in the streets. Bands will entertain the revelers at the main pleasure grounds and at street corners. Queen Anne, attended by her court, will march through the streets of the carnival city. An informal reception will be held before the opening of the ball. Among the members of the Colonial Social Club who are arranging for the last day's festivities are James Morrison, George Ortmann, Ernest Austin and Frank Burns.

## BURGULAR BAND CAUGHT AT WORK; TWO JAILED

NEW YORK, Sept. 20.—Following a raid on a burglar band in the vicinity of West Twenty-third street, two men were arrested early today charged with burglary. Five other men escaped. The party of alleged burglars was surprised while looting the store house of Julius Cohen & Co., manufacturers of clocks and suits. The police found \$18,000 worth of stuff packed up outside the building, while inside they found seven dark lanterns, two sticks of dynamite and a fine collection of burglar's tools.

## REPUBLICANS ARE URGED TO AID WILSON

Rudolph Spreckels Heads Progressive Movement for Democrat.

"We've Been Betrayed by Col. Roosevelt's Third Term Party."

COLUMBUS, Ohio, Sept. 20.—Governor Woodrow Wilson gave his hearty approval today of the formation in New York of the Wilson National Progressive Republican League. The Governor and Rudolph Spreckels, now in New York, in charge of the movement, exchanged telegrams made public today. Spreckels, wiring under date of September 19, said: "Eastern headquarters of the Wilson National Progressive Republican League were today opened in the Metropolitan Building, New York. Our league was founded by Progressive Republicans who hope to save the progressive movement that was started some years ago in the Republican party, but which is now being betrayed by the organization of Colonel Roosevelt's third term party."

Under these conditions you alone deserve the support of true Progressives who place principles above partisanship. Our membership is wholly Republican, but we feel justified in voting and working for your election, since the candidate of the Republican party does not represent the progressive majority in this party and Roosevelt's candidacy is hopeless and only serves to divide our progressive forces. To which Governor Wilson replied: "Your telegram telling me of the formation of the Wilson National Progressive Republican League gave me the deepest gratification and encouragement. The action you and your associates are taking seems to me truly patriotic. The progressive forces of the nation ought not to be divided. No mere attachment to a party name should now separate men whose purpose and objective are united for a common object. The formation of the league seems to me one of the most reassuring indications of the temper of thoughtful men. May I not convey to you my congratulations for your own part in the movement."

INVADING TATTS STATE. Invading President Taft's state, Governor Wilson opened the Ohio Democratic campaign today with five speeches, assisted by Congressman George W. Fickelmann. Wilson attacked the administration of President Taft, and Senator Gore of Oklahoma. Wilson arrived here unexpectedly from Toledo at 8:30 a. m., over the Hocking Valley railroad. Owing to the change in his schedule there was a crowd to meet him at the station. The original schedule provided for his arrival here at 11:20 a. m. At 1 o'clock Governor Wilson and Cox addressed an organization meeting in Memorial hall, and at 2 o'clock spoke before an educational meeting in a local theater. At 3:15 o'clock business men and commercial salesmen were to hear the speakers at the city hall, and at 4 o'clock a reception was to be held.

DINNER AND PARADE. Governor Wilson, Senator Gore and Congressman Fickelmann were entertained at dinner at 5:30 o'clock and at 6:30 will head a parade of voters who will march the principal streets to Memorial hall, where a big meeting will be held at 7:30. Harmon, who returned here from his vacation, will introduce Governor Wilson at the night meeting. Senator Gore and candidates on the state ticket are scheduled to address an overflow meeting at which Senator Pomeroy is expected to preside.

Governor Wilson will attend a breakfast tomorrow which State Chairman Finlay will give to the Democratic editors of the state. Senators Henry Cabot Lodge of Massachusetts, R. B. Brown, candidate for Governor, and practically all of the candidates on the state ticket will start the Republican campaign machinery going here tomorrow, while the progressive will be following a like course at Warren and Cleveland. Mayor Frank Rockwell will preside at the opening meeting of the progressives at 6 o'clock at Grace Park, California. Governor Hiram Johnson of California and Arthur T. Garfield, candidate for Governor, will introduce speakers when the progressives open their campaign.

## HEALTH DISCUSSED.

WASHINGTON, Sept. 20.—Among the topics scheduled for discussion at today's session of the American Public Health Association were questions of public health in health work, health legislation, street cleaning, ventilation in mills and school rooms, and the proper supervision of sewage disposal.

## 'NO STRINGS ON ORDERS' IS EDICT OF PETERSEN

New Chief of Police Tells Force of the New Regime

An ideal of civic righteousness and duty for a police force in an address delivered to the members of the city hall council chambers by Chief of Police Walter J. Petersen. Petersen recently received his appointment as chief of police, and this was the first time he had addressed his men since assuming his new position. Chief Petersen quoted to his men the oath of allegiance taken by the youths of Athens as an ideal to be followed by members of the police force. He stated that it might be well if every man on the force burned the oath. The Athenian pledge, which Chief Petersen declares would be appropriate for Oakland, the Athens of the West, is as follows: "We will never bring disgrace upon this city, by any act of dishonesty or cowardice, nor ever desert our suffering comrades in the ranks; we will fight for the ideals and sacred things of the city both alone and with many; we will never and obey the city's laws and do our best to inculcate like respect and reverence in those above us who are prone to annul or set them at naught; we will strive unceasingly to quicken the public's sense of civic duty. Thus, in all ways, will transmit this city not less, but greater, better and more beautiful than it was transmitted to us."

"NO STRINGS" ON ORDERS. Chief Petersen was cheered by his men when he entered the meeting. He gave a straightforward talk about police duty. "I want it understood that orders issued to you men from now on will have no strings attached to them," said Petersen. "Orders are to be understood and carried out without equivocation or a side thought as to what might be considered 'good policy.' They mean what they appear to mean, and nothing else. In the past it may have seemed to you that orders needed to be interpreted by conditions, that they had strings to them. You may take it from me, that we are wiping the slate clean today, and that orders are to be carried out as they stand. Referring to the recent salting of sergeants from one part of the city to another, and to the placing of new sergeants who have been placed in direct charge of the five municipal police districts, Chief Petersen spoke of the necessity for a more careful discipline and a greater attitude to duty. "SERGEANTS TO 'KEEP TAB.' "Sergeants have been instructed to report any dereliction of duty on your part," said Petersen. "And don't think that the sergeant has any personal feeling in this matter. I have told them to do this, and if I find that any sergeant is failing in this regard, I shall find some other place for him than a sergeant in the police department. "I want another thing understood and well understood in this regard. It has been said in this police department by some of the men: 'That sergeant will not report me. I've got something on him.' Well, that can't be said any longer. We have cleaned the slate. No man can offer in excuse for his dereliction criticism of what the sergeant has or has not done in the past."

"PULL" THING OF PAST. "Pull" will be of no worth in this department. Don't think that you can go to some influential man if you want to better your condition, or be moved from one beat to another. I am talking straight from the shoulder when I say that that will not go, and that it will actually militate against a man's chances. "We are hearing a lot about graft in police departments, and much publicity is given to accounts of graft in New York, in Denver, in Portland, and even nearer home. You are judged because you belong to a class, and the honesty of that class has been in many cases successfully called in question. "Don't begin petty grafting. That's the beginning. Don't go to a restaurant to eat because the proprietor doesn't charge you for your meal. He doesn't charge you because you are a policeman, and not because you are Tom Jones or John Smith. Don't put yourself in the position where a man can say of you: 'He's been eating my grub and smoking my cigars and drinking my whiskey, and now he goes and arrests me for a petty offense.'"

GENTLEMEN ON FORCE. "We want common sense and energetic enforcement of the law. Don't dig up obsolete laws which were good enough for the moment, but have fallen into disuse. But enforce the statutes and the live city ordinances. Don't forget that a policeman must be a gentleman. I want the city of Oakland to boast a force of men who shall be known as gentlemen. "There should be a certain sentiment attached to this work, an esprit de corps, among you. You must respect your job as something more than merely the means of earning your livelihood; something more than mere bread and butter. It is a good work. I think it would be well if every man in the department should learn to feel the value of that old oath, taken by the youths of the city of Athens, when they became citizens. Here is the Athens of the West, it may be particularly appropriate to set before ourselves such an ideal."

## KIND ACT REWARDED BY \$300,000 ESTATE

CHICAGO, Sept. 20.—An act of kindness to a weary wayfarer has made a Chicago woman heiress to a \$300,000 estate.

Five years ago Mrs. Blanche A. Raymond of 208 Cleveland avenue answered a knock at her door and found an old man who wanted to do odd jobs and receive his payment in food. He said his name was William Chasse and that he was an educated Belgian, a victim of adverse circumstances. The old man remained as Mrs. Raymond's janitor. He became ill last May. She gave him every care and finally had him taken to Alexian hospital, where he died. He called her to his bedside and told the story of his life. He summoned a notary and witnesses and made a will in which he bequeathed \$300,000 to his benefactor.

Mrs. Raymond now is searching for members of the old man's family. There are two children somewhere in the United States and each has been given \$25,000 by the terms of the will. Attorneys are searching in Belgium for the estate which Chasse said he owned.

## COIN MATCHING PROVES AN EXPENSIVE PASTIME

NEW YORK, Sept. 20.—A prosperous-looking man who said he was H. C. Aiken of the Royal Bank of Havana, Cuba, walked into the arsenal police station in Central Park and complained to Lieutenant Eaton that he had been fleeced out of \$400 by two strangers a short time before in Central Park.

Aiken explained that he was staying at the Hotel Earl in Waverly Place, and was taking a walk on Fifth avenue when he got into conversation with a young man. The young man apparently was well informed as to the value of coins, and he said that he would like to see Aiken's collection of coins. Aiken took a seat on the top of a Fifth avenue stage. The young man pointed out all the points of interest on the way uptown, and at Central Park suggested that they go through the park. At the reservoir another stranger appeared and became engaged in conversation. All became friendly and it was suggested that they match coins. It was not long before Aiken realized that he had lost \$400—the cash he had in his possession. The two men, he says, ran off before he could remonstrate with them.

## ONLY ONE DOCTOR FOR MAN WITHOUT A NOSE

ELLENBURG, Wash., Sept. 20.—After having his nose deftly removed in a free-skill fight, and having it as skillfully replaced by Dr. McKnight, an Italian, has again suffered the loss of the member, and has written to a friend of his in Kittitas wanting to know what can be done. James Heman, of the Crocker Company, is the man who has befriended the Italian, and the following letter was received today: "Tacoma, Wash. Mr. Jim Heman:—Dear Sir:—I am pleased to hear that you have been cured of your nose. I wonder if the Dr. of Kittitas mind the man as took to him to cure his nose, the medicine did not do it and was quite curable; but after month it was pulled off again. I've taken him to many other doctors, but it seems getting worse all the time. I wouldn't bother you at all Mr. Jim but I must do it because you are the only one I know better, and I hope you will be so kind to inform me about this. I placed the Dr. in front of me, why then I believe he would trust my name or test and me an advice. Except my best wishes, ever yours."

## PHONOGRAPH HELPED HER WIN HUSBAND

BOSTON, Sept. 20.—A phonograph romance is that of Arthur Erisman, manager of the Boston office of a phonograph company, and his bride, who was Miss Rella Reid, of Washington, D. C. They fell in love with Miss Reid's voice as reproduced by a phonograph, sought her out and married her.

Miss Reid has just graduated from the Dolly Madison school, at Washington, and had purchased a ticket to Fairbanks where she was to spend four years in voice culture. She came to say farewells to her family, who are visiting at Fernberth. There she sang to a phonograph, and her husband, Irby Reid, sent the disk to Mr. Erisman, a business friend.

Mr. Erisman immediately moved to Fernberth to become acquainted with the owner of the voice, and he persuaded the girl to give up an operative career to become his bride.

## MARRIAGE IS EVIDENTLY WORTH BONUS OF \$500

FT. WORTH, Sept. 20.—If the gallant youths of Texas aren't all furnished with wives it won't be the fault of County Clerk Beavers of Tarrant county. He is organizing \$500 eligible men to a matrimonial society.

To each one who marries \$500 will be given. The first member is from Putnam. His dollar fee came this morning. The second is from an Illinois farmer.

The constitution of the society provides that as each member marries he must furnish a substitute member in the club. It is further provided that a member must remain in the club a year before getting the \$500 wedding bonus.
